

STAR STUDENTS June 2017

Infants: Caleb: Caleb has become quite the mover. He has begun playing alongside of his buddies more often, especially during bubble time. Caleb always has a calm and loving demeanor at school. He is full of smiles and very affectionate to his teachers. He loves to interact with his friends and always giving his teachers the sweetest hugs. Caleb loves story time; he enjoys looking at the pictures and looks to his teacher with a smile as to say thank you. We love having Caleb in class and we are so eager to see what he will be doing next.

Toddlers: Zayden: Zayden has only been with us a few short months but he is an extremely fast learner. He is very adventurous and explores every aspect of the class. Some of his favorite activities are painting and color in art or building with our soft blocks. Zayden knows his colors and can count to 10. Zayden loves singing and dancing with his friends, that's when we see his personality shine. He is a great helper to his teachers and friends. We have seen lots of progress from Zayden with his verbal

skills and have watched him grow increasingly more independent. We know he will do great things when he goes to Young Two's.

Young Two's: Levi: Levi is a very outgoing little guy. He has lots of friends and loves to play all day. His favorite time of day is center time. He loves to race the cars and build with blocks. Levi has learned so much since starting in our class. He can now identify many objects, shapes, colors, and even some ABC's. He is working hard on counting to 10 and we know he will master it in no-time! We are so proud of Levi and we look forward to watching him grow.

Older Two's: Mikel: Mikel is very wise for his age. He is a great helper to his teachers and friends. He is very caring and often shows concern for his peers. Mikel is very inquisitive and loves to learn new things. He participates in circle time every day and loves listening to stories. He does great when identifying colors and shapes, and has shown great progress with his numbers and letters. He loves to play with cars, run outside, and all things "boys" like. We truly enjoy having such a smart and sweet little guy in our class.

Three's: Skylar: We are so proud of all Skylar's accomplishments like learning to spell her name all by herself, tracing, and identifying letters. Skylar is so sweet too; she is so caring and very helpful. This makes her the perfect example of a true friend. Skylar is our little "tomboy" and she will tell you that herself. She likes to play basketball with the boys, race cars, and isn't afraid to get dirty. On the other hand, you can find Sky dancing and playing in home-living with the girls. Skylar is still learning her letters by sight but is always first to raise her hand and try. She is so brave and we are so lucky to have a great role model in our class. We look forward to seeing how she will wow us next.

Fours: Harmony: Harmony comes to class with a big smile on her face, ready to learn. She is working extra hard on learning her letters and numbers. She has been so excited to read and learn her sight words. Harmony loves to play with Barbies and also loves to sing and dance. She truly enjoys fresh air and uses her outside time to blow bubbles, or just run in the breeze. We are looking

forward to further growth from Harmony and truly love having her in class.

Preschool: Juno: Juno is such a bright kid. Sometimes she comes off shy, but she knows what she wants, how she wants it, and isn't afraid to go and get it! She is a star student during circle time. She can identify her colors, shapes, numbers, and letters. She can even tell you about the weather. Juno has come such a long way, she can now spell her first and last name too. She does great during art time with cutting, pasting, and coloring in the lines. We are so lucky to have been able to watch her grow. Now, we can't wait to see what's in store for Ms. Juno, she is definitely a super-star in the making.

**CONGRATULATIONS TO ALL OF
OUR STAR STUDENTS!**
